2026-T4 RS

Stellenbeschreibung:

Stellenbeschreibung Manager Strategic Intelligence (f/m/d)

Wir suchen für einen großen überregionalen Energieversorger in Deutschland einen

Manager Strategic Intelligence (f/m/d)

Beschreibung

Join our Strategic Intelligence team, where you'll have the opportunity to shape our strategic direction by delivering high-quality analysis of key external developments that influence the business.

- Deliver strategic insights and recommendations to top executives, including board members and the CEO, based on actionable insights into energy markets, industry trends, competitive dynamics, and regulatory changes.
- Contribute to key strategic decisions by providing insights that support business development, risk management, and corporate communications, and shape corporate positions on critical energy topics.
- Strengthen and expand our knowledge base by overseeing and challenging the work of external analysis and intelligence providers, ensuring high-quality insights for decision-making.
- Lead complex, high-impact projects, including managing top-tier consultants, and take ownership of content development, ensuring alignment with the company's strategic objectives.
- Foster strong working relationships across the group, promoting knowledge-sharing and cross-functional collaboration to enhance strategic insights.
