We are searching for a large, nationwide energy supplier in Germany a

Senior Project Manager - Strategy & Projects (f/m/d)

Description

- Lead end-to-end strategic group-wide initiatives in Finance Services to enhance efficiency, scalability, and quality of accounting processes
- Utilize professional project management skills to effectively plan, execute, and monitor projects
- Drive the standardization and harmonization of finance processes across multiple entities and countries by taking responsibility to drive alignment and successful execution, leveraging your in-depth understanding of finance operations
- Manage transition and carve-in projects, transferring finance operations to Finance Services while ensuring smooth implementation, business continuity and high customer satisfaction
- Act as a trusted partner for senior stakeholders in Finance, IT, and other corporate functions
- Facilitating stakeholder communication and decision-making, ensuring transparent reporting across all stakeholders and moderating discussions between central and local teams
- Deliver strategic rollout projects across the group taking responsibility to drive alignment, reach important milestones and successful project execution
- Track project performance, report on progress to senior management as well as identifying potential project risks early, implement mitigation strategies, and ensure timely resolution of issues
- Hands-on supporting rollout-related topics from requirements specification to harmonization, standardization, communication and change
